FORMULA

Formula Performance Cruisers—

ONE OF LIFE'S MOST SATISFYING PLEASURES

*Exhilarating freedom, on-water adventures and comfortable overnights—
Formula Performance Cruising takes you well beyond your expectations.*

Formula Cruisers are the ultimate in sleek exterior styling, superior components and well-thought-out features. Each PC is built to proven structural standards, delivering optimum running speed and assuring long-range integrity offshore. Responsive maneuverability is a major plus in handling, so the Formula ride is smooth, stable and remarkably comfortable. A Formula PC enhances your cruising lifestyle with the satisfying pleasure of owning the finest.

PC cockpits are exceptional in detailed beauty and creative versatility. Seating is substantial — generously cushioned for extended cruising and correctly proportioned for excellent support. At the helm, elite command features include the latest electronics along with premium quality instrumentation mounted on burl wood-grain panels. The design-integrated wetbar serves as a convenient refreshment center opposite the U-shaped lounge and table that also converts to an expansive sun lounge.

Luxurious PC cabin amenities and designer color themes flow together in complete harmony. Sumptuous, curving lounges upholstered in the softest Ultraleather™ promote relaxed togetherness. From the 31 to the 41 PC, solid, handcrafted Corian® countertops complement handsome galley cabinetry finished in either high-gloss cherry wood grain or a deep cherry. Matching wood-grain drawers and doors throughout further enrich the sophisticated décor. For 2004, the 40 PC owner stateroom provides privacy with the addition of wood-grain double doors.

Elegant from any angle, the 40 PC is now optionally equipped with a fiberglass hardtop along with a gleaming, stainless steel windshield frame. Imron® Flagship hullside colors include sun-sparked Metallics in Sapphire Blue, Black Onyx and Champagne, plus the gleaming Silver Diamond Pearl. A Formula Performance Cruiser truly shines on the water.

*Experience greater personal
boating pleasure in 2004 —
Formula Performance Cruising*

*Cruiser
2004*

THE Formula Difference

A tradition of excellence persists as the hallmark of each Formula powerboat. In 1976, when Victor B. Porter and other family members acquired Thunderbird Products, Vic, as an entrepreneur, had been producing pleasure boats for almost twenty years. Today, the next generation of the Porter family, five strongly committed owner/managers, lead Formula in daily operations. President Scott Porter along with three brothers and a sister work together to continually improve Formula powerboats while Vic Porter serves as chairman.

The Porter family shares many happy memories of boating together over the years. They understand that performance along with well-thought-out features of top quality and construction make all the difference in boating enjoyment. Over the past twenty-five plus years the Porter family has concentrated on producing the highest quality product possible, followed up by responsive, customer-oriented service. Maximum personal satisfaction for Formula owners continues to be the Porter family goal.

FORMULA MAINTAINS THE HIGHEST STANDARDS IN BOAT PRODUCTION.

- > A 500,000 square foot manufacturing facility, including corporate offices, was designed and built specifically for the production of Formula powerboats. To meet future needs, there is room to increase development and production at the present site.
- > As advancing technology becomes available, it is utilized to improve product and ensure superior quality on a continuing basis.
- > Excellent plant design and individual working conditions make it easy for employees to do their jobs right every time.

EMPLOYEE TEAM GOALS BENEFIT FORMULA OWNERS.

- > On a volunteer basis, employees participate in Employee Involvement Teams to improve procedures and efficiencies. Self-Directed Work Teams also accomplish continual product improvement, comparing ideas and acting on them. As teams, employees cooperate to improve overall quality.
- > An on-site training program, **C.O.R.E.** (*Champions of Reaching Excellence*), expands and sharpens Formula employees' personal and professional developmental skills.
- > Each time they boat, Formula owners benefit from employee-generated product reliability.

FORMULA RELIABILITY CENTERS PROVIDE BETTER SERVICE OVERALL.

- > Dealers are well informed on Formula product so they can provide timely, expert technical and mechanical service.
- > Each dealership is assigned a Formula technical assistance representative to address questions requiring a direct response from the factory.
- > Formula works with dealerships to ensure that quick, expert service keeps Formula boaters happy and on the water.

FORMULA GUARD ENSURES LONG-TERM OWNER SATISFACTION.

- > A five-year limited protection plan, **FORMULA GUARD**, protects your boating investment, covering structure, engine/outdrive, accessories and components, including labor and materials.
- > **FORMULA GUARD** is transferable during the five-year ownership period, enhancing a Formula's value appreciably.
- > For detailed information visit our website at www.formulaboats.com

CERTIFICATION OF ALL FORMULAS BY THE NATIONAL MARINE MANUFACTURERS ASSOCIATION IS A REASSURING SAFETY FACTOR ON THE WATER.

> As a charter member of NMMA, Formula has always been committed to product integrity.

> The safety of owners is of primary importance to Formula.

> NMMA certification is displayed in each Formula and should be a determining factor when looking at other boats.

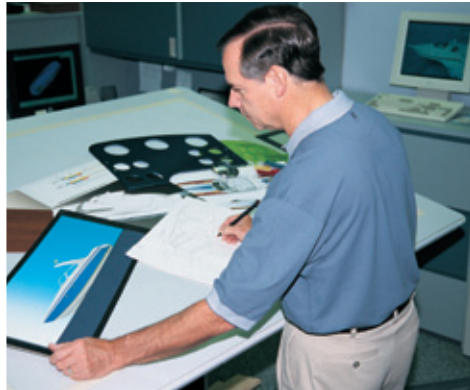

JOHN ADAMS, EXCLUSIVE FORMULA DESIGNER, BLENDS FORM AND FUNCTION TO PERFECTION.

> For over thirty years Adams has been designing Formulas with sleek, distinctive styling, excellent performance and superior quality.

> Formula enjoys the spotlight on the leading edge of technology due to Adams' continual investigative research.

> Adams' expertise elevates Formula Cruisers to ever higher levels of beauty, comfort and innovative practicality.

FORMULA CRUISER COCKPITS ARE DESIGNED FOR COMFORT AND PLEASURE.

> Sleek styling and versatile features equal lots of enjoyable space for everyone.

> The integrated wetbar with molded sink and storage is a welcome feature for refreshments any time.

> Throughout

the cockpit, polished aluminum drink holders are within easy reach.

> Versatile, U-shaped lounge seating with tables and filler cushions easily converts to a large sun lounge.

FORMULA PERFORMANCE CRUISERS TAKE YOU AWAY AT A LIVELY PACE.

> Formula cruising is fast, smooth, stable and dry.

> Each PC delivers the excellent performance and handling characteristics you expect in a Formula.

> The deep-V hull design ensures a balanced running attitude and a comfortable, solid ride for all aboard.

FORMULA PC STRUCTURE ENSURES OFFSHORE INTEGRITY.

> Each Cruiser is expertly designed and engineered for offshore adventure.

> Cruise at your own pace, execute smart turns and slice through offshore waves with confidence.

CAD/CAM TECHNOLOGY AND R&D EXPERTISE TRANSLATE NEW DESIGNS INTO REALITY.

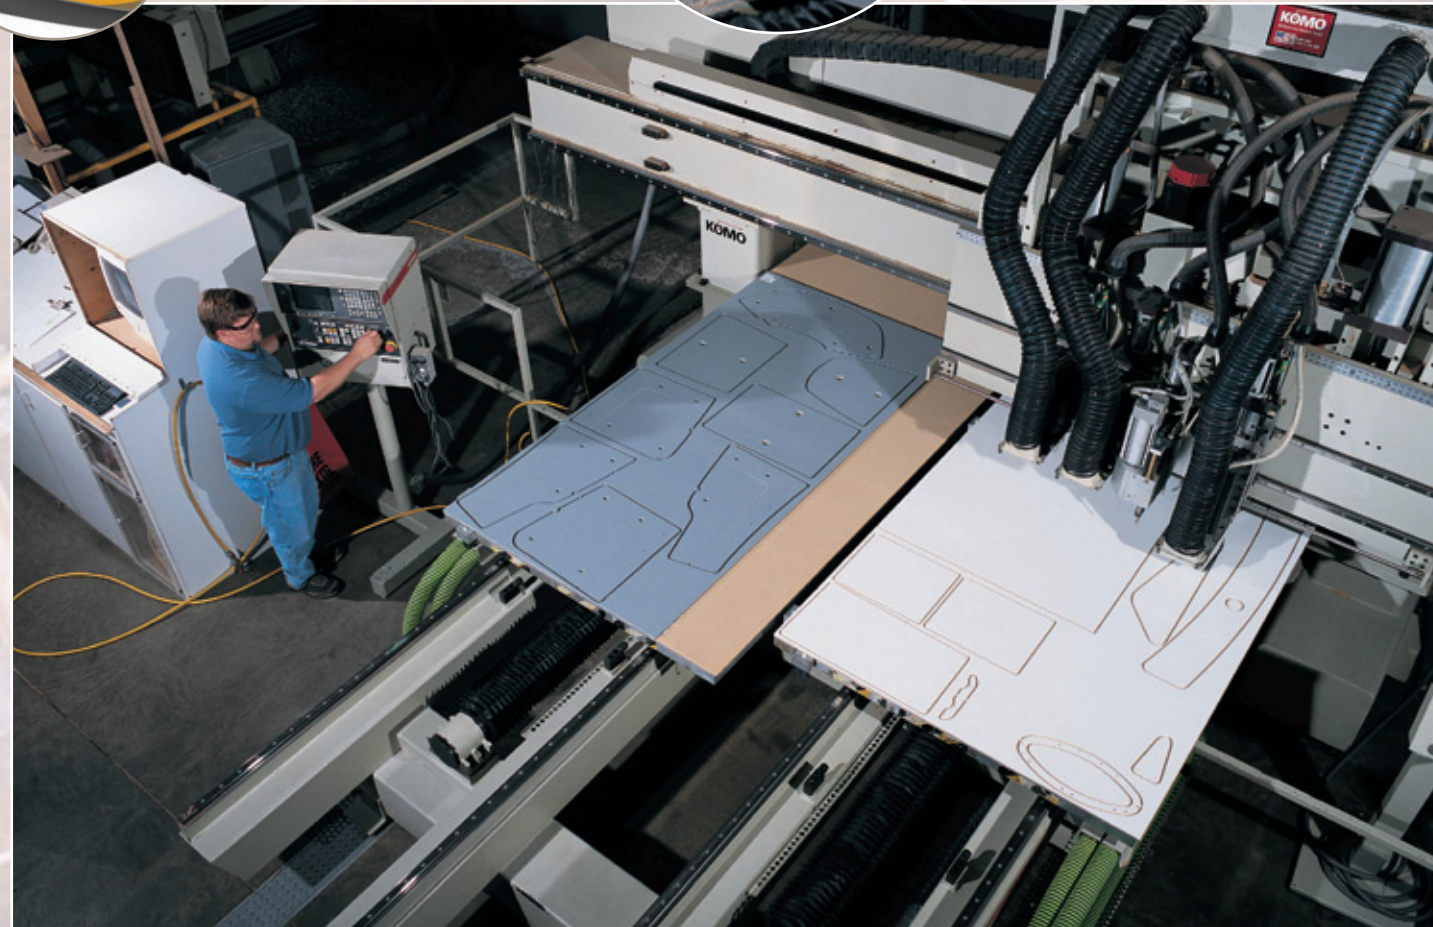

> Using state-of-the-art CAD/CAM technology, skilled operators transpose John Adams' designs to 3-D imaging.

> Dimensions and positioning of components and complex systems are determined for precise fit.

> Full-size master "plugs" are built, requiring months of handwork to finish, and full-scale cabin and cockpit mockups are built to fine-tune ergonomics and space utilization.

> The Computer Numerically Controlled (C-N-C) routers are programmed to cut stringers, panels and other components, maintaining accuracy to within thousandths of an inch.

> Sidewalls, headliners, cabinets and coaming panels meet exactly – no bead welt is necessary to hide faulty design.

FORMULA'S UNIQUE SUSPENDED STRINGER SYSTEM ENSURES PERFORMANCE CRUISER INTEGRITY AND LONGEVITY.

> Each hull is reinforced with a custom-engineered matrix constructed of Perma Panel™, a pressure-treated specialty wood that is not susceptible to decay-causing fungi.

> Cut precisely by C-N-C routers, the matrix is encapsulated in resin and laminated to the hull while suspended on jigs. This eliminates contact distortion and creates a level base for exact component fit.

> Hull cavities are filled with rigid structural foam, increasing integral strength and producing a quiet, solid ride.

FORMULA JOINS THE DECK AND HULL UTILIZING FAIL-SAFE PROCEDURES.

> Plexus®, an industrial bonding agent, joins the deck and hull with an inseparable chemical meld.

> The deck and hull joint is also bolted together with 1/4" stainless steel, truss-head bolts backed up with heavy aluminum plates at 18-inch intervals.

> This rugged durability is vital offshore where wave action takes its toll on all but the strongest construction.

PULTRUSION REINFORCEMENT ADDS CRITICAL STRUCTURAL STRENGTH.

> During Cruiser construction, custom-fabricated fiberglass shapes are positioned under engines and along interior gunwales.

> Chemically bonded to the hull with Plexus, these pultrusions provide increased back-up support with no hull distortion.

INDIVIDUAL LAMINATION SCHEDULES RESULT IN A SMOOTH, REFLECTIVE FORMULA FINISH.

- > Formula's superior exterior finish is achieved through the consistent use of high quality materials and by following layering procedures exactly.
- > Patterned fiberglass shapes, produced through in-house Gerbercutter® technology, are layered with resin to build parts in carefully maintained molds.
- > Divinycell® adds lightweight strength in specific areas and Coremat® helps prevent surface print-through.
- > By allowing a part to remain in its mold the ideal length of cure time, Formula avoids the foggy finish and surface distortion often observed in lesser quality boats.

AME® 5000 IS THE TOP QUALITY RESIN USED IN ALL PERFORMANCE CRUISERS.

- > Formula specifies higher cost AME 5000 resin because it has proven to be extremely effective in protecting surface gelcoat.
- > AME 5000 lends exceptional strength and resiliency while providing more flexibility and greater resistance to crazing, distortion and osmotic blistering.
- > Your Formula will retain its beautiful finish well into the future because Formula utilizes the best resins, approves the quality of each shipment on arrival, and carefully monitors storage temperatures and applications to ensure consistent results.

FORMULA TESTS ALL PROPOSED COMPONENTS FOR RELIABILITY.

- > New components are evaluated for quality and endurance through extensive testing in unfavorable conditions.
- > If an item fails to meet these tough standards, it won't be in your Formula. Only the most reliable and durable components with good service support are selected.

FORMULA CRUISERS HAVE ONE OF THE MOST POPULAR FEATURES IN BOATING TODAY.

- > Formula's beautifully curved windshields offer a center walk-through to the fore-deck on most models. Also, the steps are well proportioned and have protective railing.

316L STAINLESS STEEL RAILS ARE A TOP-GRADE FINISH FOR ALL FORMULAS.

- > This design feature is a real plus for easy, safe access to handle forward lines and for docking, anchoring, etc.
- > All Formula safety rails are welded 316L stainless steel, the highest marine-grade stainless available.
- > Anything less will not keep its like-new appearance.

ALL HARDWARE IS INSTALLED FOR INTEGRITY YOU CAN COUNT ON.

- > When installing deck cleats, stainless steel lock nuts are applied through stainless steel backing plates for maximum reinforcement.
- > All other deck hardware is bolted securely, not screwed down, to effect solid construction.
- > A flexible O-ring under the head of each hardware bolt creates an invisible, watertight seal. Unlike silicone, bolts with O-rings can be adjusted or removed and will seal again when resealed.

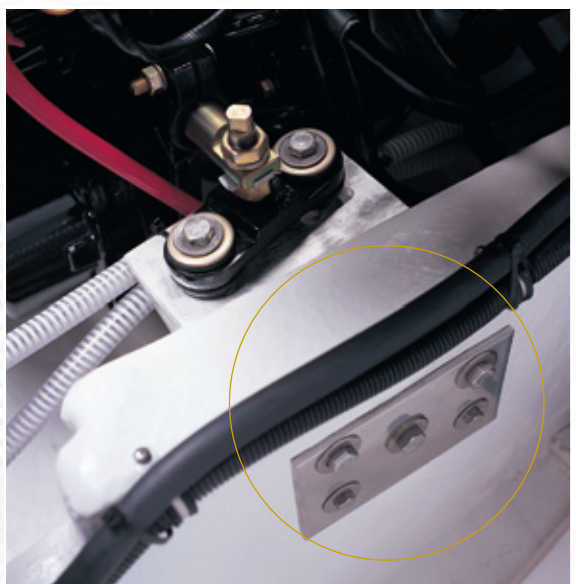

FORMULA PROMOTES ELECTRICAL RELIABILITY BY INSTALLING DEPENDABLE, DEEP CYCLE BATTERIES.

- > Deep-cycle batteries are standard in all Performance Cruisers.
- > Deep-cycle batteries can be charged repeatedly without losing strength—another way built-in reliability keeps you on the water.

FORMULA EARNS HIGH MARKS FOR DETAILED, WELL-LAID-OUT ENGINE ROOMS.

- > At the touch of a switch, a large section of the aft cockpit sole is raised for easy access to the engine room. A day hatch also allows quick checks in the larger PCs.
- > Important safety features include an engine room fume detector and the automatic fire extinguishing system.
- > Formula thru-bolts all engine mounts using heavy duty, angled aluminum backing plates.

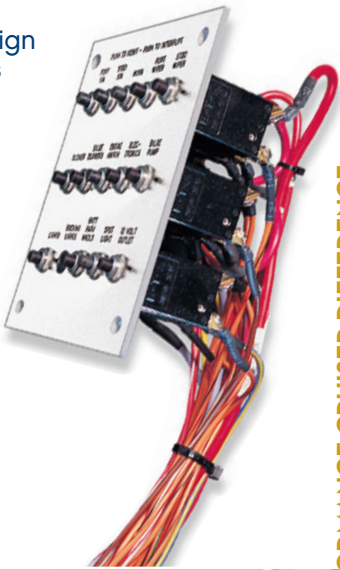

FORMULA ELECTRICAL SYSTEMS ARE DESIGNED TO GIVE UNINTERRUPTED SERVICE.

- > Each wiring connection is individually secured with a visible crimp by Formula instead of using pre-insulated connectors common in the industry.
- > The crimped connection is insulated with double-walled shrink tubing – the inner wall of hot-melt adhesive forms a sealed barrier against water and corrosion, while the outer wall prevents shorts.
- > Inspection panels are easily removed to access dash wiring connections.
- > For longer runs, color-coded wires are routed through flexible conduit for protection and security.

E-T-A® CIRCUIT BREAKERS PROTECT SYSTEMS FROM EXCESS ELECTRICAL CURRENT DAMAGE.

- > "Push-push" switch design disconnects and resets the circuit.
- > Circuit breaker security enhances electrical component reliability.
- > Circuit breakers eliminate the need to stock a variety of fuses.

STATIC-FREE MUSIC IS A FORMULA BOATING PLUS.

- > Formula installs a top-quality AM/FM/CD stereo system with marine grade speakers in each PC.
- > A custom-designed noise suppression system effectively eliminates alternator interference with stereo performance.
- > You enjoy each clear note of your favorites while the engines are running.

PERFORMANCE CRUISER HELMS ARE DESIGNED FOR CORRECT ERGONOMICS.

- > Constructing full-scale mockups for each new model finalizes correct human dimensions.
- > The helm provides easily viewed, comfortably reached shifters, throttles, gauges and switches.
- > Backlit, waterproof rocker switches provide easy recognition and systems control.

THE SPECIALLY ENGINEERED HELM SEAT ACCOMMODATES TWO IN COMFORT.

- > Both captain and companion enjoy the individual option of sitting, standing, or leaning back on the well-padded, hinge-up seat.
- > By varying stance, fatigue is avoided and the proper line of vision is comfortably maintained.

ELIMINATING WOOD ENHANCES DURABILITY IN FORMULA CRUISER COCKPITS.

- > StarLite® XL polyurethane marine paneling is used instead of wood throughout the cockpit.
- > Seat cores are either rotocast plastic or formed fiberglass, a virtually indestructible framework.
- > Eliminating wood structure greatly benefits future good looks in the cockpit.

THERE'S PLENTY OF ROOM FOR YOUR GEAR IN A FORMULA PC COCKPIT.

- > Smooth fiberglass storage is found in side compartments, under seating and in trunk areas aft.
- > Special compartments for lines, fenders and PFDs keep the cockpit clutter free.

FORMULA COCKPIT SEATING IS SUPERIOR IN EVERY WAY.

- > Formula excels in expertly designed, comfortable seating.
- > Human dimension criteria are utilized to achieve correct proportions and contouring.
- > Separate, pre-shaped foam components are placed in each seat to provide optimal lumbar and leg support.

TRANSPORTATION GRADE COCKPIT VINYL TAKES OUTDOOR WEAR IN STRIDE.

- > Top grade vinyl accents are color-permeated and coordinate with the exterior Imron® colors.
- > Custom white vinyl, treated to resist staining, is comfortably cool, even in direct sunlight.
- > Formula vinyl upholstery holds its shape and looks new far longer due to special backing material.

DRY COCKPIT SEATING PLEASES EVERYONE.

- > Dri-Fast® polyurethane foam is specified in Formula cockpit seating.
- > Water drains through the foam instead of being trapped, eliminating soggy seats.

A CAD/CAM CUTTING SYSTEM CONTRIBUTES TO FORMULA UPHOLSTERY'S DETAILED, SCULPTED APPEARANCE.

- > A computer-based GERBERcutter® cuts patterns rapidly and consistently.
- > Assembled by Formula's skilled sewers, patterns come together in complex designs.
- > Specialized thread used in sewing exterior vinyl upholstery does not deteriorate from exposure to UV, cleaning agents or saltwater.

EACH PERFORMANCE CRUISER IS CHECKED OUT IN A TEST TANK BEFORE DELIVERY.

- > Working through an extensive checklist, all instruments, systems and accessories are tested.
- > Engines are run to establish efficient operation.
- > A continuous spray of water on the foredeck confirms a watertight seal around deck hatches, hardware and along the windshield.

GRAPHIC DESIGNS AND SOLID HULL COLORS ARE IMRON®, A DURABLE ALL-WEATHER ENAMEL.

- > Special cleaning prepares the deck and hull for Imron graphics.
- > Complicated patterning and masking procedures are involved in each different color application.
- > Imron graphics never chalk or fade as lesser finishes do; Imron retains its original, like-new color year after year.

FORMULA CABIN DESIGN PROVIDES GREAT AMENITIES FOR CRUISERS.

- > Floor plans maximize cabin storage while keeping the layout sleek and flowing.
- > Designer décor complements your choice of exterior graphic color.
- > Upscale lounges, tables, galleys, draperies and carpeting are excellent quality.
- > Ultraleather™ lounge upholstery has the rich, supple feel of leather, yet is tough and durable – spills wipe up easily.

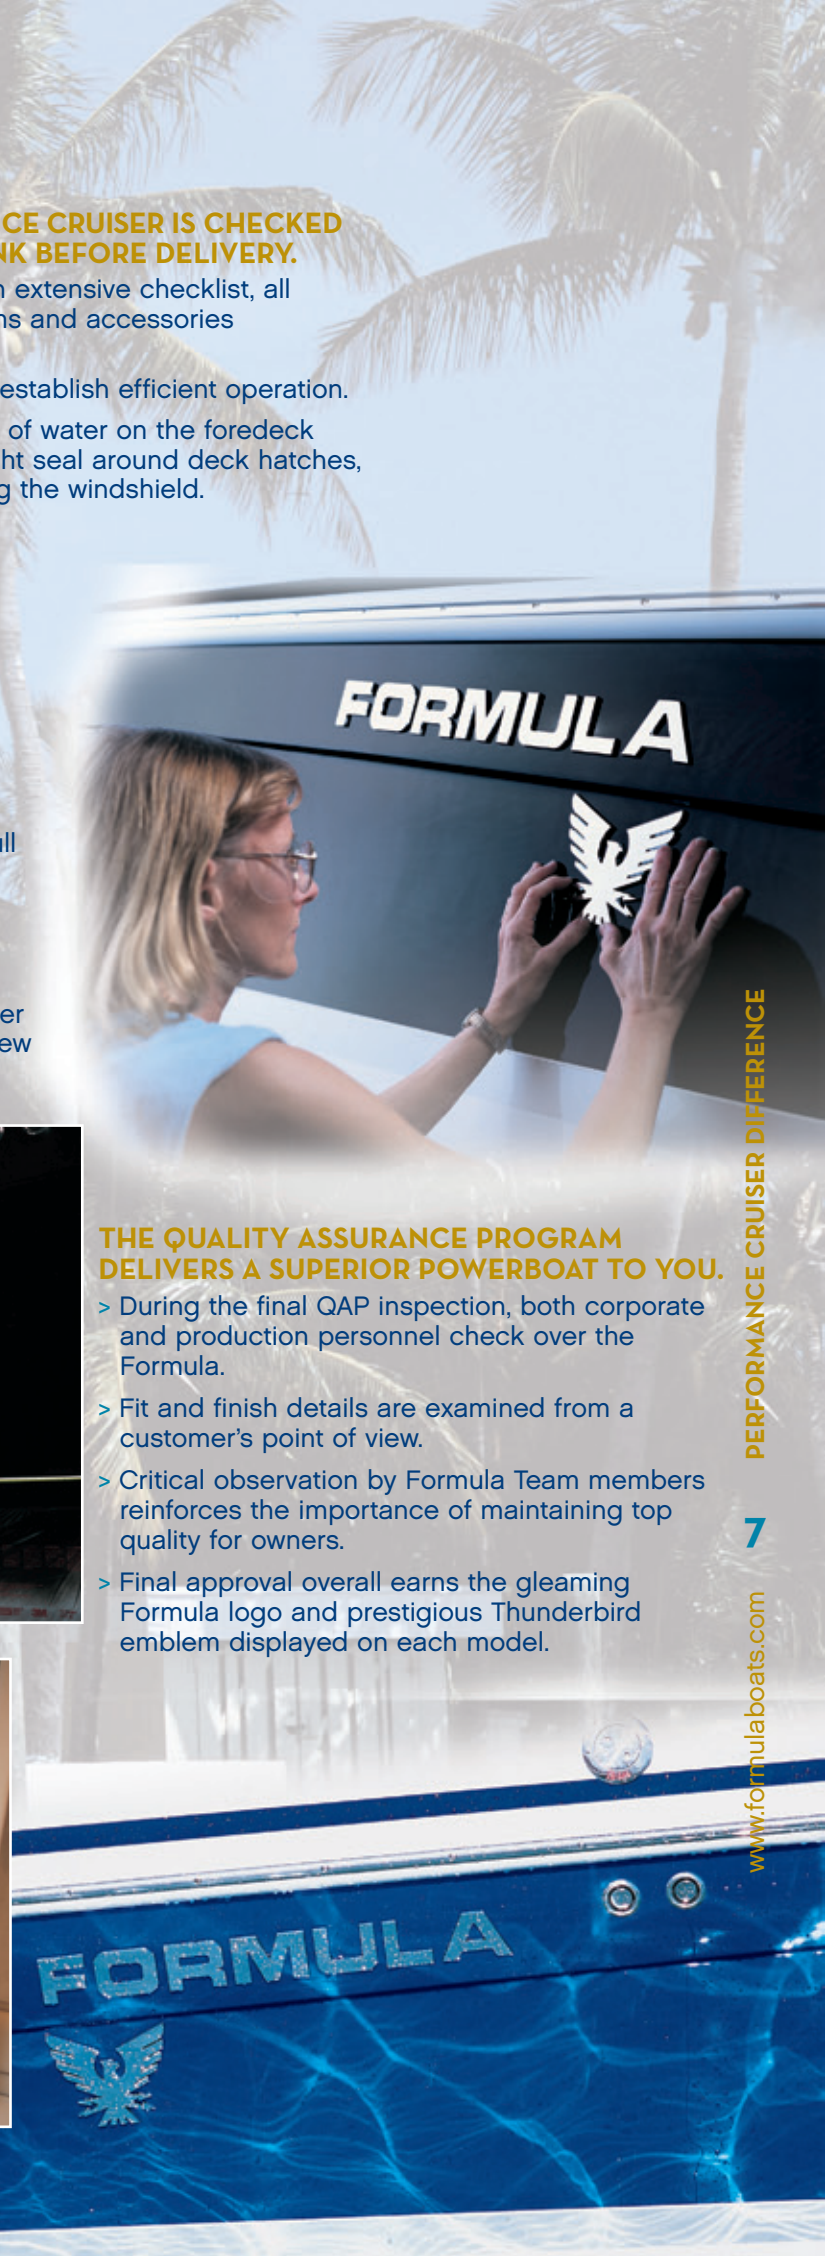

FORMULA CABINETRY FITS PRECISELY WITH THE LOOK OF FINE FURNITURE.

- > Using the CAD/CAM system, programmed routers cut, drill and groove cabinetry materials for exacting assembly and fit.
- > Cabinetry is securely bolted in place with metal brackets, and top-quality knob latches keep doors closed under way.
- > Solid Corian® countertops, handcrafted with beautifully rounded edges, are smooth and seamless – easy to clean and care for.

THE QUALITY ASSURANCE PROGRAM DELIVERS A SUPERIOR POWERBOAT TO YOU.

- > During the final QAP inspection, both corporate and production personnel check over the Formula.
- > Fit and finish details are examined from a customer's point of view.
- > Critical observation by Formula Team members reinforces the importance of maintaining top quality for owners.
- > Final approval overall earns the gleaming Formula logo and prestigious Thunderbird emblem displayed on each model.

Formula Color Selections

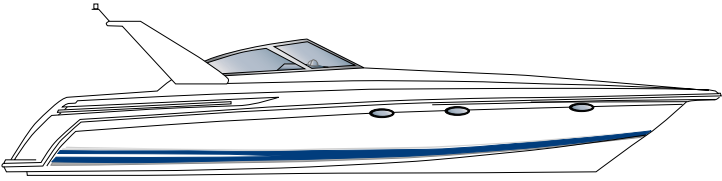

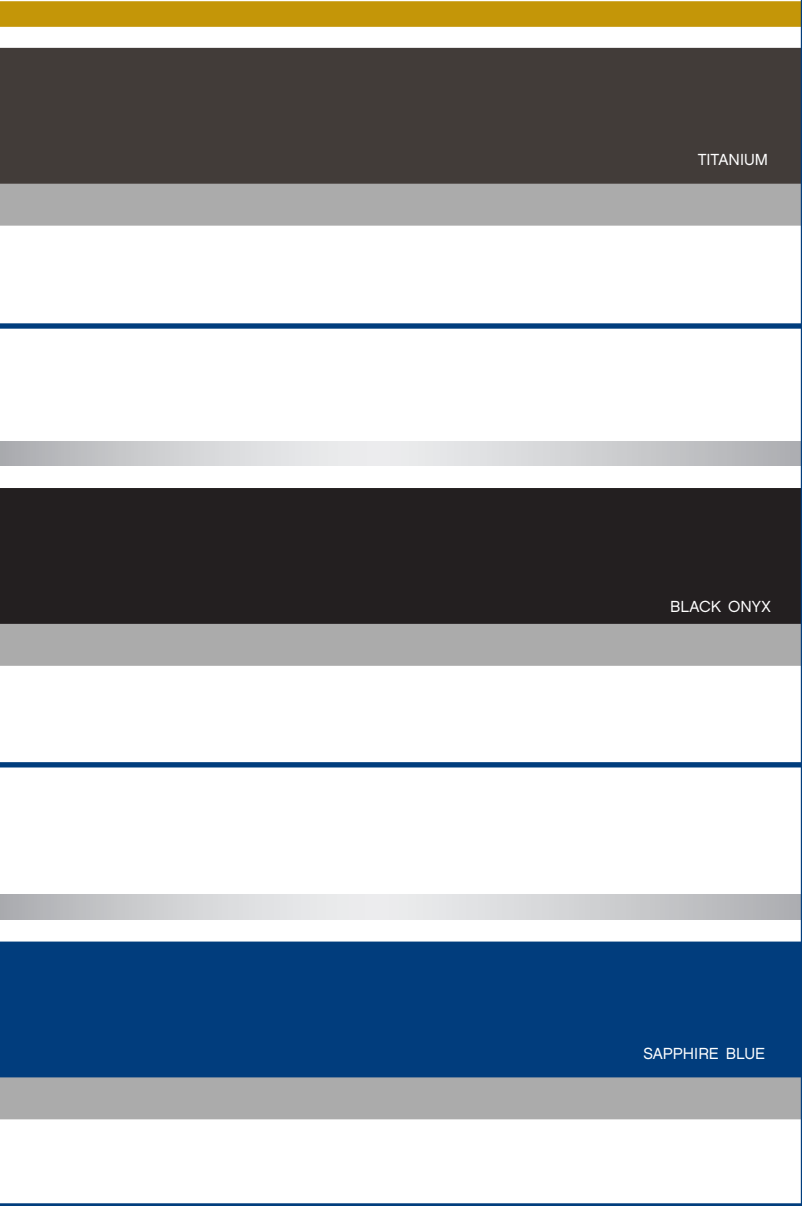

Your selection of an exterior color accent reflects your personal taste. Formula's use of Imron®, a DuPont polyurethane enamel, will keep your graphic beautiful year after year. Formula Cruisers for 2004 are available in seven distinctive color choices in either the Standard Imron graphic or the Flagship solid hullside graphic.

Formula 2004 cabin décor perfectly complements your exterior color choice with tasteful designer expertise. Cabinetry is available in either cherry or deep cherry finish, with a countertop choice of either Acorn or Morocco Corian®. Color themes for each boat have been designed and appointed with elaborately textured fabrics. Coordinating pillows, bed coverings, draperies and UltraLeather™ lounges provide complete boating luxury.

Formula 2004...

FORMULA LINEUP

The Formula powerboat lineup includes Yacht, Cruiser, FAS³TECH™, Sun Sport and Super Sport models. A wealth of upscale amenities and innovative features define the new 47 Yacht at top. The elegant Formula Performance Cruiser series includes the 40 PC, pictured second from top, as well as the 27, 31, 34, 37 and 41. The popular Formula Sun Sport/Super Sport lineup includes the 400 Super Sport, pictured third from top. Sun Sports and Super Sports are perfect for dayboating and range from 26 to 40 feet, including bowrider and closed-bow models. If you like exhilarating speed you should get into a Formula FAS³TECH. Ranging from 27 to 38 feet, the lineup includes the 382 FAS³TECH, pictured at bottom. Call **1.800.736.7685** to receive a free brochure, or visit your nearest Formula dealer to see the new Formula models for 2004.

FORMULA ACTION

The Formula *Action* is a news publication filled with company updates, new model information and boating experiences of owners. The *Action* is mailed to Formula owners and is also available at your Formula dealership, or call **1.800.736.7685** to receive a free copy.

THE FORMULA SHOWROOM™

Newly-designed Formula software creates a comprehensive display of our awesome 2004 lineup. This new program, The Formula Showroom, helps make the exciting process of choosing your Formula graphics, options and finance program much easier! See your Formula dealer for details.

FORMULA DVD/VIDEO

The 2004 Formula video features Formula Cruiser, Yacht, FAS³TECH, Sun Sport and Super Sport powerboats in exciting action along with a brief walkthrough of the Formula facility. Call **1.800.736.7685** to receive your free DVD or video.

FORMULA GEAR

Formula Gear and Accessories are top-quality items featuring the impressive Formula logo. If you like up-to-date colors and styling, visit your Formula dealer for a free catalog, order online at the Formula Gear website, **www.formulagear.com**, or call **1.800.736.7685** to receive your free Gear catalog from Formula.

Boat smart from the start. Take a boating education course and get a vessel safety check for your boat. For more information, contact The United States Coast Guard Auxiliary at 800.368.5647 or www.cgaux.org, or The United States Power Squadrons at 888.FOR.USPS or www.usps.org.

FORMULA WEBSITE

Formula's website is continually updated with new features, text and pictures. Order Formula Gear online and also check out the latest Formula news, racing events, boat care articles, Thunderbird's company history and owner forum. You can also order a catalog or visit the feedback/e-mail section for any comments or suggestions that you may have. Formula is at your fingertips! You will find Formula online at several locations:

www.formulaboats.com
www.formulagear.com
www.racing.formulaboats.com

Click on these sites to see the newest and best of Formula!

FORMULA CANVAS

Formula custom-fitted canvas features either color-matched, non-fading Sunbrella® solution-dyed acrylic fabric with water-repellent SeaMark™ vinyl undercoating or white, polyester fabric double coated with vinyl resin on the topside and finished with a durable water-resistant coating on the underside. Both canvas packages include 316L stainless steel framework and weather-resistant YKK zippers.

Cruiser white, polyester fabric Bimini top.
